

EDGE 6D: THE COMPACT G-FORCE SIMULATOR

Always wanted to experience the G-forces of a Formula 1 race car? Experience high speed gravel drifts? Diving with a fighter jet? Rounding your first touch down with a Boeing airliner? Thrilling roller coaster rides on one square meter?

Totally out of this world with motion and virtual reality headset?!

GFORCEFACTORY makes it happen for your exhibition, party and other events!

Edge 6D is a compact genuine full motion simulator that can be placed in even in the smallest spaces. The system fits in every elevator and passes through every doorway.
